

Restaurant List

GF - gluten free; V - vegetarian; VG - vegan

Please note that restaurants with allergen-friendly markers means that there are meal options on the menu that do not include wheat/meat/animal products. This was NOT coded for cross contamination, so if you have a severe food allergy, we do ask that you call ahead to ensure that a given restaurant is a safe choice for you.

The restaurant scene is in South End—take the light rail to the East/West Blvd station and there are cocktail bars and restaurants throughout. Or take the light rail north to 36th Street station for NoDa area restaurants and breweries.
