

SSS Feminist & Womanist Community Listening Sessions

Hosted by the SSS Committee on Gender & Sexuality

Help Shape a New Community Within SSS

We are exploring the creation of a feminist and womanist community within SSS — a volunteer-run space for connection, shared interests, mentoring, arts & culture, and gathering at the annual meeting and throughout the year.

This initiative is not a replacement for SWS-S. Instead, it is an opportunity to listen, practice inclusively, and build accountability from the start. All interested members are welcome, including those once involved with SWS-S.

We want your input on:

- Mission, purpose, and priorities
- Structure and leadership
- What makes the space welcoming across race, class, gender, sexuality, nationality, and career stage
- The name of the community
